**411 00 00806-1061-1 liter**  
**411 00 15290-2890-5 litres**  
**Winter autocristal -70°C**

**PROPERTIES.**

Meccanocar winter autocristal is a concentrated detergent liquid for washing vehicle windows. Easily removes greasy dirt, mud and insects through the action of the windshield wipers. It leaves absolutely no streaks.  
Its use, diluted as needed with the water from the trays, prevents freezing and protects all the rubber and plastic parts of the washing circuit.  
It absolutely does not affect any type of paint or chrome.

**DILUTION AND METHOD OF USE.**

The product must be diluted in the following percentages:

<b>Percentages referring to the product -70°C</b>	
<b>% of product in water</b>	<b>Freezing temperature</b>
25	-10°C
33	-16°C
50	-25°C
200	-34°C
Puro	-70°C

**TECHNICAL FEATURES.**

Aspect: clear liquid.  
Color: blue  
Odor: characteristic of alcohol.  
Fusion point: -80°C  
Water solubility: soluble in all proportions.  
Relative density: 785-786 Kg/m3  
Self-ignition: +400°C.
