

## meccanocar Summer autocristal

411 00 00805-1060-250 ml – 411 00 00807-1062-1 L – 411 00 21130-6421-500 ml

Concentrated detergent liquid for washing vehicle windows, to be used diluted in water inside the windshield wiper tanks. Easily removes greasy dirt, mud and insects through the action of the windshield wipers. It leaves absolutely no streaks.

Particularly suitable in the spring/summer period for removing insects that stick to the windscreen of vehicles, as well as dirt, dust and mud without leaving streaks or annoying marks. It absolutely does not affect any type of paint or chrome. Releases a pleasant scent.

Biodegradable over 90%.

### How to use

Pour into the windshield wiper water tank, in quantities of approximately 500 ml for every 3 liters of water or varying the concentration according to the user's preferences, the liquid is completely soluble and high concentrations do not compromise its function.

### Chemical-physical characteristics

- ➤ Appearance: clear liquid
- ➤ Color: fluo yellow
- ➤ Odor: light floral
- ➤ pH: 8-9
- ➤ Solubility in water: Soluble in all proportions
